

IT/iPad Rules of DISD

We want all DISD students, teachers and staff to feel comfortable at our school, so we follow these rules:

1.

I am responsible for what happens on the iPad I use.

2.

I am careful with my own iPad and other people's iPads.

3.

I do not create, upload or share content that is offensive, criminal, racist and/or inappropriate, or that may harm or incriminate others.

4.

I do not use other iPads without permission.

5.

The iPad is only taken out and used in class on the teacher's instructions.

6.

Attempts to violate technical security measures, hide network identities, or gain unauthorized access to systems and services are strictly prohibited.

7.

During breaks, the iPad is not used and remains in the classroom.

8.

When changing rooms, I leave the iPad in my bag.

9.

I do not photograph or film anyone without their express permission and I do not post photos and videos of others on the Internet.

10.

I don't download anything at school without the teacher's permission.

11.

I only write messages when the teacher allows it for teaching purposes.
